Dr. Fox has amazing techniques that by far outweigh traditional chiropractic. He is very knowledgeable, he takes the time to answer your questions and concerns. He explains in depth the information needed for your care, as well as using 3D visual aids and charts. He is kind, caring and professional. The staff go out of their way to make sure you are taken care of, comfortable, and well informed. They are friendly, and take the time to listen. Overall this office is the best all around.

I hadn't visited my chiropractor in over year due my finances. Years ago Dr. Fox popped my hip in repeatedly. Eventually he traded "popping" for "clicking". My hip was a chronic problem. Now it's causes me very little trouble. Due to what I do as a small farm owner, I find that routine visits to my chiropractor help me maintain flexibility. My hip has found its home but my back and neck really missed my routine maintenance. I woke up and got out of bed in less than half the time I did yesterday. Thanks, Dr. Fox. Thanks for taking the huge risk to modernize your procedures.

Dr. Fox is a great doctor. He has an innate ability to be able to touch the human body and know if there is an area that needs help. His years of experience and his wisdom of the spine, in particular the atlas, are what make him invaluable to his patients. He has helped me with my neck and back issues like no other doctor ever has. And besides his incredible ability to heal, he has a great bedside manner, is humble and caring and one can instantly tell he loves what he does. And to top it all off, his office staff is pretty wonderful. If you are in need of a great chiropractor, he is your man.

Dr.Fox is nothing short of a magician! You arrive with pain & literally in one visit the pain is totally gone. No drugs offered that only mask symptoms but he actually heals the cause of the pain. What else could a patient require? I've had other Chiropractors actually hurt me by "yanking" me into alignment. Dr. Fox's treatment is always gentle & 100% effective. The office staff is just wonderful & the atmosphere in this office is that of a happy place. First off I would like to say that everyone is very professional and friendly...great smiles! In going over my x-rays I had more vertebra out of alignment than in but with only two adjustments to this point I have already noticed some positive changes. I have to say though that for three days after that first adjustment (C-1 very major change) I felt like I had been hit by a truck as the muscles and nerves got used to the correct alignment. Dr Fox mentioned there may be some discomfort and I would have given 5 stars if he hadn't down played what I was going to experience...I do understand what he did though. Over all the visits to the office have been very pleasant...I cannot say that about my initial recovery after the adjustments but in the end me and my back will be much better off for the corrections.

Anastasia gave me a wonderful massage. She approached it with a lot of thought and consideration for my body and noticed where I was holding tension. She even took a moment to explain to me why I was hurting in the places I was hurting. I left feeling a hundred times better than when I came in, and with some tools to keep the pain at bay in between visits. Awesome experience.

Dr Fox was exactly what my wife and I needed. We live in Alaska and come to Seattle each year for medical reasons and our 1 chiropractors retired so we were searching for someone down here and our daughter recommended him. His practice is totally different than our previous Doctor but he has helped us with issues no one could before. There are many reasons we use Dr Fox but the following typifies this office. One morning my wife was in terrible shoulder pain at 6AM in the morning. I called his office to find out the hours from the phone answering tape on a Friday morning, to my amazement he answered and he arranged for us to come in and my wife's pain was gone when we left the office. He is extremely dedicated to his profession and most of all to his patients.

Dr Fox is the BEST!!!! The other day I called the office prior to it opening & was able to speak to Dr Fox. I had explained to him that the night before I had had a severe migraine & that I was currently at work & knew that I would not be able to wait til 2p when the office opened to be adjusted. Dr Fox willingly offered to adjust me as soon as I could get in. I was there within 15minutes & received my adjustment & would say it was in the nick of time. Not all doctors would sympathize with people & their pain like he does. In the past after my car accident I had to call on him a few times during non business hours & he then too willingly brought me in to adjust & ease my pain. The technique he uses to adjust the body is unbelievable. What is most remarkable is that when you are being adjusted I do not feel as if I need to tense up and within seconds to minutes I always can feel the huge difference. I recommend him to everyone I know. I have used a few chiropractors in my life and let me tell you this technique is non-abrasive & really works well for me. Thanks again for being so kind & compassionate!

Several years ago, after tightening wheel lug nuts, I was unable to lift my spring loaded garage door. After taking x rays, then meeting Dr Fox in the conference room, I was told that some time in my youth, I had injured my neck and had never done anything about it. My mind went back to 1964 in Benson Arizona where I had just turned my head and couldn't turn it forward without turning from the waist. I went up the hill to the Chiropractor, walked out feeling ok, but never returned for a follow-up. Big mistake, but done now. Done now but not forgotten. If I could just save one other human from the same future I had, (I'm 71) I would consider it worth it, but alas, I

have never convinced any youngster that I know of. Don H PS This is the only survey I have ever taken. The simple reason: I have never had the opportunity to take the survey in my own words. I don't like canned answers to any question. They are always misleading.

I had constant neck and shoulder pain for more than a decade. Not only was the pain intensifying, my cognitive functions were impacted to a point where I had to get a chiropractic adjustment after a plane or car trip. I thought my travelling days were over. It was suggested that breast reduction might help. Fortunately, my practitioner referred me to Dr. Fox, used an x-ray to identify that, literally, my head was not on straight. Wow! What a difference! Neck and shoulder pain disappeared. Plus, I got more adjustments and, eventually, all the residual low back pain disappeared as well. Now I count on monthly exams to keep me in good shape... and I make extra visits when physical or emotional stress shows up in my body. I couldn't be more thankful for Dr. Fox.

Dr. Fox has been making me feel better by leaps and bounds since my recent car accident. Their highly efficient office staff got me in the morning after my accident and now I am so thankful for how Dr. Fox has changed my whole outlook. He thoroughly explained what he saw on my xrays and he answers any and all questions i have for him. This is the 2nd time he's helped me through some major pain and so I would definitely recommend him to anyone, any age and at any health condition. ps, as an RN i was extremely skeptical as to how chiropractic care would help. I realized, when

it comes to overall health, it all stems from our nervous system which chiropractors have a direct impact on. Also, Dr. Fox doesn't "crack" your back, but uses a more gentle tapping machine which is not scary at all.

This was my first time experiencing this type of chiropractic care. I really appreciated that it was not the "cracking" approach that I have had in the past. Dr. Fox explained the method to be used, and the videos were also very helpful in understanding the process. Best of all it was painless and no stress involved. Not only has it helped the lower back and neck pain I was receiving therapy for, I was surprised that I no longer have the "clicking" sound in my jaw due to TMJ problems. I also must say I am so impressed with the efficiency of service and the warmth of all the staff. Thanks to you all.

I left my chiropractic appointment very frustrated after being left alone in a dark room for 15-minutes without ever being checked on. After having my neck set, I was advised to remain on my side on the table and not move. I finally walked out, assuming that I'd been forgotten about. Afterward, I did not get one call from Fox Chiropractic to check on me and/or explain their circumstances. This left me feeling like they don't care. My recommendation for the Doc would be: first, to communicate with your patient about how long you intend to leave them alone in the room AND second, if it is going to be for a while, come check in on the person to see how they are doing. I certainly hope my insurance did not get billed for this lack-of-service.

Finally! A chiropractor who really knows his stuff! Thirty years ago, I broke my back. Twenty years ago, I broke my neck. I have been to a few chiropractors since that time, but discontinued treatment because I got tired of the aggressive treatments which seemed --intuitively-- to be somewhat counterproductive to the healing process. Although I was not in a lot of pain when I started treatment (i.e. bodywork), I noticed a big difference in my posture and body alignment, the way I feel in my body,

and my body's ability to remain pain-free since beginning treatment. Imagine that: healing my body decades after trauma! Wow. This work is HUGE!!! Thank you Doctor Fox!

As usual, the Miracle Man fixed me right up! Always a pleasure to see Dr. Fox.

I've had Chiropractic care off and on for the past 30 yrs but Dr. Fox's method, attitude and supporting team make the experience (and results) far and above all others. It's not traditional chiropractic and overwhelmingly more effective than I ever expected.

I'm a new patient at this clinic and new to chiropractic. Dr. Fox and his staff are professional and friendly. It's a pleasure to come in for appointments...even first thing in the morning. I'm referred to by name and always with a smile. I feel cared for and valued as a patient. Thanks!

I love the new technology with text reminders and emails. It just adds to the great care I get at Dr. Fox's office. Everyone treats me like I really matter and they are interested in me. Dr. Fox listens carefully and makes suggestions about my activities that might make me feel better or irritate a situation. I like his gentle adjustments.

The experience was fantastic. The massage therapist took care of my needs and could almost sense my tense spots and was able to relax me through a combination of tenderness and strength. It was an absolutely wonderful experience.
